Abstract (en)

[origin: WO2010049130A1] The invention relates to a compressor (10) for producing compressed air, especially for a motor vehicle, said compressor comprising an unloader valve (12) for unloading the compressor (10) outside of the compressed air supply phase. The invention is characterized in that the unloader valve (12) is electrically actuated. The invention further relates to a method for operating a compressor.
