Abstract (en)
[origin: EP2345578A2] The boat has a vertically oriented lock (8) partially penetrating to a pressure hull (2), where the lock is formed with an upper covering-side lock opening. The lock includes a lock pressure hull (10) and an operating-relative self-supporting insert that is integrated in the lock pressure hull, where the insert is selected from various inserts. The insert is provided with a shock-resistant storing unit that is stored in the lock pressure hull, and provided with a connection unit for connecting to electrical and/or hydraulic, water-bearing, gas-conveying line system.
