Abstract (en)

[origin: WO2010057790A1] The invention relates to a domestic appliance, in particular, a refrigerator, comprising at least one hinge for mounting a door of the domestic appliance, wherein the hinge has a bearing pin (20) with at least one first free end (22) and a bearing bush (30) which has a housing (32) for a free end (22) of the bearing pin (20) and a through channel (34) for a cable and is designed to be able to plugged on the first free end (22) of the bearing pin (20) on assembly, wherein the bearing pin (20) has a first positioning device which guarantees that the bearing bush (30) may be plugged onto the first free end (22) of the bearing pin (20) only in a first angular position and not in a second angular position.
