Abstract (en)
The present invention provides a self-adhesive notepaper holder, which combines at least a notepaper of different patterns, one is rolling notepaper (4) and the other is draw-off notepaper (5); the holder is composed of symmetrical left and right casings (1, 2) with a hollow egg shape, wherein butt-jointed sleeves (10, 20) are set for fixation of the rolling notepaper (4), and butt-jointed slots (16, 26) are also arranged for embedding of the draw-off notepaper; moreover, two parallel supporting bars (11, 21) are arranged on the circumference of the holder for stable standing; a rectangular opening (13, 23) is used for output of rolling notepaper (4), with one side connected with a curved arc (12, 22) and several sawtooth structures (120, 220), allowing easy draw off and tear off of the rolling notepaper (4); and a long notch (15, 25) is used for drawing off single piece of notepaper (5); this design is suitable for the office work with its diversified functions such as: recording, messaging and labeling.
