Abstract (en)
[origin: WO2010050831A1] The object of invention is a three-dimensional burr fastener that can be used especially to form three-dimensional fastening elements. According to the invention, the three-dimensional burr fastener is characterised in that it consists of not less than three elements (4) joined together in a common base (3), each comprising a head (1) and a stem (2), where the diameter of the stem (2) is smaller than the diameter of the head (1) and/or the perimeter of the stem (2) is smaller than the perimeter of the head (1).
