Abstract (en)
[origin: WO2010063921A1] The invention relates to an interconnection housing for a motor vehicle, including connection terminals for a battery (2) and connection terminals (D', E') for an inverter. The invention is characterized in that it includes connection terminals (U1, U2) for an external electric power supply (7) and outlets (M1, M2, M3) for connection to an AC electric motor (3), such that the battery (2) can be recharged when the external power supply (7), the inverter (5), the electric motor (3) and the battery (2) are all connected simultaneously to the interconnection housing.
