Abstract (en)
[origin: EP2353442A1] The border (20) has two side pieces for lateral borders of a rear open section of a drawer (10), and a central web for a front confinement of the rear open section. An approach surface is arranged at each side piece with a connector, so that the central web is vertically insertable at the approach surfaces between the side pieces and is defined at the side pieces by the connector, where the side pieces comprises a rectangular profile or a trapezoidal upward tapering profile. Aprons are provided at a bottom side of the side pieces and/or the central web.
