Abstract (en)
[origin: EP2353444A1] The cupboard drawer has a drawer frame with a vertically aligned individual supporting column (4). The drawer frame is movably arranged in an inner space of a cupboard body (1). The individual supporting column is connected with a lower drawer frame profile. A furniture front (3) is supported at the individual supporting column. The lower drawer frame profile is formed automatically adjustable to vertical position with respect to its position in the lower cupboard body guide (6) depending on the inclination of the supporting column.
