Abstract (en)
[origin: EP2354283A1] The cover has a pile warp (1) running in a longitudinal direction, and a ground fabric (5) including a ground warp (6) and a bonding warp (7). Weft threads (8, 9) run perpendicularly to the ground warp and the bonding warp, where the cover is manufactured according to a pile weaving technique. Pile warp yarns (2, 3) exhibit different thread sizes, and two pile knobs (12, 13) of one of the pile warp yarns of same thread sizes are arranged with each other in the longitudinal direction. The yarns are made of wools, natural fibers, vegetable fibers or animal hairs.
