Abstract (en)
[origin: EP2354432A2] The door sheet (1) has a lower part formed by a lower rail (11) and an upper part formed by an upper rail (12), where a door sheet panel is arranged between the lower rail and the upper rail. The lower rail in modular construction has a pair of two profiles connected with each other in a level parallel to door sheet level. An independent claim is also included for a module system for manufacturing a door sheet.
