Abstract (en)

[origin: EP2354697A2] The attachment frame (1) has a bind-like outer frame (4) provided to a planar with control unit at a wall aperture, and a bind-like inner rail (7) attached at an inside of the outer frame. Ventilation screens are attached on the outer frame. The wall aperture is formed over a wall (2), and a rectangular or square cross section is provided with vertical sides and horizontal sides. A locking collar (16) is provided for fastening of the ventilation screen. Slots are arranged in the inner rail, and an air filter mat is arranged between adjustment elements.
