Abstract (en)
[origin: EP2355077A1] The device has supporting plates (1, 2) including primary faces (10, 20) and secondary faces (11, 21). Illumination panels (3) are provided with LEDs (4) and are respectively mounted on the primary faces of the plates. The secondary faces of the plates are provided to define an interstice (5). The primary and secondary faces of the plates are in the shape of St. George cross. Each plate is provided with a traversing orifice passing through a passage between the interstice and the panels.
