Abstract (en)

[origin: WO2010054805A2] The invention relates to a woven fabric (1) made from threads (2) that are formed from plastic at least on their outside surface. According to the invention, at least one surface side (7) of the fabric (1) is partially metallically coated. The invention furthermore relates to a device having at least one such fabric (1), to the use of such a fabric (1) for various application purposes and to a method for manufacturing said fabric (1).
