Abstract (en)
[origin: EP2194230A1] The assembly (12) has an inner ring (22) concentrically arranged in a circular guide blade support (14). Guide blades (20) are arranged between the guide blade support and the inner ring. The guide blades are fastened to the guide blade support, where one of the guide blades is sparingly fastened to the inner ring. A guide blade head is sunk in the inner ring. The guide blade head of each guide blade includes a bar, which is arranged in an outward opened recess at the inner ring.
