Abstract (en)

[origin: WO2010057283A1] The present invention refers to a protection and startup integrated combo for airtight refrigeration compressor, which may accommodate in a sole product, different functions such as: cable press, fastening base (fence), fence cover, among others. This combo (1) comprises at least one motor startup device (2) and at least one motor overload protection device (3), the motor startup device (2) being associated with the overload protection device (3), characterized in that it comprises at least one cable press element (15), or at least one fastening base (25), or at least a cover (35), or further the combination thereof, so as to form an integrated part associated, in the manner of fitting, with at least one airtight compressor feed terminal.
