Abstract (en)  
[origin: CA2739735A1] The invention relates to an HF angle plug connector having an exterior conductor component (12) and an interior conductor component (14), wherein the interior conductor component (14) comprises a fastening element (18) for mechanical and electrical connection to an interior conductor component (20) of a coaxial cable, wherein the exterior conductor component (12) comprises a cable-side end (22) on which the coaxial cable is arranged and a front face (24) opposite the cable-side end (22), said front face being transected by a longitudinal axis (26) of the installed coaxial cable, and wherein an inspection opening (28) is arranged and designed on the exterior conductor component (12) such that the fastening element (18) of the interior conductor component (14) is visible through the inspection opening (28) after installation of the interior conductor component (20) of the coaxial cable on the fastening element (18) of the interior conductor component (14), wherein a cover component (30) for closing the inspection opening (28) is designed in one piece with the exterior conductor component (12). According to the invention, the inspection opening (28) is designed on the front face (24) of the exterior conductor component (12).
