Abstract (en)

The mirror (100) has a mirror element (1) comprising a contour (2) in combination with two mirror elements (1', 1''), where a shape of the contour corresponds to a shape of a contour of a geometric projection of a visor of a motor cycle helmet. An image (3) of the visor is arranged around the mirror elements. The three mirror elements are pivotally connected with each other and are rectangular in shape, where one of the mirror elements is adjustable in its height. The mirror elements have same height and are arranged in same height.

Abstract (de)

Bei einem Funktionsspiegel (100) mit mindestens einem Spiegelement (1) weist das mindestens eine Spiegelement (1) für sich genommen oder in Kombination mit weiteren Spiegelementen (1', 1'') einen Umriss (2) auf, dessen Form der Form des Umrisses einer geometrischen Projektion eines Visiers eines Motorradhelms entspricht.
