Abstract (en)

[origin: EP2361739A1] The system (10) has shelves (26,28) or stacking systems for receiving of fabricated pallet (94) or for hardening the precast concrete on the shelf, a rack control device (30) or stacker crane, a store (74) for formwork elements (76) and a working station for forming, reinforcing, casting and compression. The components are formed as transportable modular units which consist of assembled sub-elements and are removably mounted on a foundation plate. The rack with the rack control device or the stacking system with the stacker crane is arranged in a core area (24).
