Abstract (en)

[origin: EP2362149A1] The appliance (1) has a display system (3) with a projection system (4) and a projection surface (5), where the projection system projects data e.g. power parameter, associated to a heating element of the appliance on the projection surface constituted by a rear face (6) of a control panel (7). The projection system is arranged at interior of a body of the appliance, where the projection system comprises a light source (13) e.g. LED. The control panel is placed in an upper part of the appliance.
