Abstract (en)

[origin: EP2363850A2] A tightening cord 7 has an elastic cord 11 which is bent into a loop. The two ends 13 of the cord are fixed to a fastening element 15 to which a hook 17 is attached which can be hooked through a grommet. A further hook 19 is attached to this hook 17 in such a way that the two hooks form an S-shaped double hook. The cord 11 bent into a loop can be hooked onto this further hook 19. The further hook 19 as well as the fastening element 15 are then present on different sides of the canvas.
