Abstract (en)

Offshore installation for offshore energy resources exploitation comprising a movable self-installing platform wherein the platform (1) comprises a floatable pontoon (3) with at least one leg (4) that is adjustable between a transport position in which the leg is elevated with respect to the pontoon and an installation position in which the leg is lowered with respect to the pontoon, wherein the platform is arranged for connection of cabling (8) and/or piping from the sea bottom to the pontoon, further comprising a protection pipe (9) arranged to enclose the cabling and/or piping between the sea bottom (6) and the pontoon (3).
