Abstract (en)
[origin: EP2365247A1] The holder has rectangular plate-shaped blanks (A, B) with an upper edge and a lower edge. The blanks comprise a rectangular recess opened in the upper edge. The blanks comprise slots extending vertically downwards and upwards from the upper edge and the lower edge, respectively. The blanks are assembled together to form a four-armed structure i.e. tea light holder pyramid (50), which forms the holder, by the slots, where the structure has a cross like shape in top view. The recesses are retrofitted under formation of a receptacle for a tea light (22), and the blanks comprises steel sheet.
