Abstract (en)  
[origin: EP2366310A1] The item has a generally circular foot panel for positioning item of a seating furniture (10) on a floor. The foot panel is of a partially convex configuration, and comprising a side directed toward the floor being constructed as a non-slip surface (24). A central part (12) connects a seat to the foot panel and includes a vertical center axis running centrally through the foot panel. The side of the generally circular foot panel, which is directed toward the floor is made of soft plastic material. The generally circular foot panel is a 2-component plastic-material.
