Abstract (en)

[origin: EP2366495A1] The hand-tool machine (10) has an eccentric gear (27) provided with a switching unit for switching a rotary angle guiding unit (67) between an eccentric mode and a rotary-eccentric mode. The switching unit has a locking body for blocking at a locking contour such that switching is blocked in the rotary-eccentric mode during installation of eccentric tool. The locking body is adjusted between two positions.
