Abstract (en)
[origin: EP2366518A2] The machine has component i.e. mixing unit (1), raised over a lifting device (2) in a working position and supported with respect to the ground. A concrete mixer is loaded in the working position of the component. The component is transported to a loading area (5) of a transport vehicle (6) i.e. semi-trailer. The lifting device is raised in such a manner that the transport vehicle is driven out under the component, where the lifting device is releaseably connected with the component. The component exhibits a shape and/or dimension of a 20-inch container or 40-inch container.
