Abstract (en)  
[origin: WO2010049468A1] The invention relates to a device for teaching and training the golf swing, comprising a stand (20, 60) with at least one first support element (22, 62), and comprising at least one first guide element (32) for guiding a golf club (12), said guide element connected to the first support element (22, 62) by way of a first connection element (38), and comprising at least one second guide element (34) and a third guide element (36). The second guide element (34) is connected to the first guide element (32) and to the stand (20, 60) by way of a second connection element (40). The third guide element (36) is connected to the first guide element (32) and to the stand (20, 60) by way of a third connection element (42). A golf club (12) can be fastened to the end of the first guide element (32) opposite the first support element (22, 62) by way of a fastening element (46).
