Abstract (en)

[origin: WO2010072945A1] The invention relates to a method for processing text data in a telecommunication context between at least one first terminal (T1) and one second terminal (T2), comprising, after a first processing device (MCU) receives text data (d1) from the first terminal (T1), generating image data (Im) integrating said received text data (d1) in order to transmit the image data (Im) to at least the second terminal (T2). The invention also relates to a corresponding device and to a call system including such a device.
