Abstract (en)

A front cover (20) for a storage unit (16) is adapted, in use, to move between open and closed configurations and is biased to the closed configuration, in which closed configuration contents of the storage unit to which the front cover is adapted to be attached are not on view, wherein the front cover comprises hinging means (28) adapted to allow the front cover to pivot between the open and closed configurations and at least partially retract into the storage unit.
