Abstract (en)

[origin: WO2010060997A2] A warehouse (1) for storing transportation units (2) of a ropeway (3) has a number of tracks (10), each for successively housing a given number of transportation units (2), and having a closed end (14), and an open end (15) at which to feed the transportation units (2) in and out; a transfer unit (11) extending between a ropeway (3) and the tracks (10) to feed the transportation units (2) between the ropeway (3) and the tracks (10); and a number of thrust carriages (16), each mounted to run along a respective track (10), and each designed to exert a force, which acts on the transportation units (2) along the track (10), extends along the track (10), and is directed towards the open end (15) when feeding the transportation units (2) both in and out.
