Abstract (en)
[origin: EP2375511A1] The contact field has an insulating material housing (5) and multiple metallic contacts (4) for a connection with a twisted-pair socket, where each metallic contact has a feed line section (6) for a connection with a printed circuit board. The metallic contacts are formed from contact plates, where two of the feed line sections are arranged offset relative to other feed line sections. The contact field is provided under specification of Category 6a.
