Abstract (en)

[origin: WO2010068092A1] A bag for bulk goods comprises an unfoldable wall construction (2, 3, 4) and a flexible filling hose (7) fastened to the wall construction in a first fastening area (21) of the wall construction. The bag further comprises at least two flexible hoisting cloth parts (5A, 5B, 5C, 5D) fastened to the wall construction, for picking up the bag by hooking hoisting means (30) to the hoisting cloth parts. Each of the hoisting cloth parts is fastened to the wall construction in a second fastening area (22) of the wall construction associated with the respective hoisting cloth part. The second fastening area is situated at a distance from the first fastening area. Each of the hoisting cloth parts is fastened to the filling hose in a third fastening area (23) of the filling hose associated with the respective hoisting cloth part. The third fastening area is situated at a distance from the first fastening area.
