Abstract (en)

[origin: WO2010076097A1] The invention relates to mixtures, preferably sealing pastes, more preferably shield tail sealing pastes, and to the use of the mixtures according to the invention for sealing construction elements and/or construction machines, in particular for the preferably temporary sealing of the transition between the shield tail of a tunnel boring machine and the pipe liner or tubing lining of the tunnel safeguard. The mixtures comprise layered silicate, preferably bentonite or talc; an alcohol having 1-5 hydroxyl groups, preferably glycol; an alkaline salt or ammonium salt, preferably a carboxylate; and water.
