Abstract (en)

[origin: WO2010076015A1] The invention relates to an iron, in particular a clothes iron, trouser iron, skirt iron, transport iron, and/or presentation iron, having an iron body (1) for receiving an article of clothing to be hung up and having a hanging element (3) at a top side (2) of the iron body (1), wherein an information medium (8) extending flat downward and having display surfaces (9) on one or both sides for displaying advertising and/or other information is mounted using mounting means on an iron body (1) on the underside (7) thereof, and/or wherein the iron body (1) comprises at least one clamping element (60, 63, 77), by means of which an at least substantially information medium (8) extending flat downward and having display surfaces (9) on one or both sides for displaying advertising and/or information is or can be mounted.
