Abstract (en)  
[origin: EP2383406A2] The mounting device (300) comprises a shear connector part having an anchor pin at one side, and a base-element-lateral unit which is provided for fixing the mounting device at the base, where a wooden pole lateral mounting element is provided for holding the shear connector part at a wooden pole (100). An independent claim is also included for a mast arrangement with a wooden pole.
