Abstract (en)

[origin: US2010198396A1] The invention relates to an apparatus (8) for depositing and/or dispensing at least banknotes (13) of a first denomination and banknotes (13) of a second denomination having at least one input and/or output unit (22) for the input of the banknotes (13) to be deposited and/or the output of the banknotes (13) to be dispensed. The apparatus (8) further comprises a reading unit (26) with the aid of which at least the denomination of each banknote (13) to be deposited or dispensed can be ascertained. Furthermore, at least one banknote acceptor (12a to 12d) to accept the banknotes (13) is provided. In addition, the apparatus has at least one transport unit to transport banknotes (13) between the input and output unit (22) and the banknote acceptor (12a to 12d), wherein the transport unit of the banknote acceptor (12a to 12d) supplies only banknotes (13) of the first denomination and banknotes (13) of the second denomination to the banknote acceptor (12a to 12d).
