Abstract (en)  
[origin: EP2384669A1] The system (100) has a lying mattress and a base mattress (10) provided with motor adjusters (4, 4'), where each adjuster comprises an adjustable segment (2). The lying mattress or base mattress is hinged or divisible, and includes multiple regions (1, 1a, 3), where one of the regions contains the adjusters and the other region does not contain the adjusters. The base mattress has a base plate divided into multiple segments (13, 13', 13''), that are articulately connected with one another. The base mattress has a layer (7a) formed from a foam material and provided over the base plate.
