Abstract (en)
[origin: EP2384862A1] The present invention relates to a tool holder for holding tools by means of a magnet, which includes a finger socket permitting the tool holder to be mounted on a fingertip for manipulating tool bits or other accessories, The tool holder includes a finger socket and a tool holding portion coupled to the finger socket. The tool holding portion is at least partially formed of material having magnetic properties.. Preferably, the magnetic tool holder may include a bit wrench, a socket wrench, screw bits or an element holder.
