Abstract (en)

An adaptor (100) is provided. The adaptor comprises a first portion including a plug (110) insertable into a port of a portable electronic device (160). The adaptor further comprises a second portion including at least one adaptor contact (120) configured such that, when the plug of the first portion is inserted into the port and the portable electronic device is placed in a pod (170), the at least one adaptor contact abuts to at least one pod contact in the pod.
