Abstract (en)
[origin: WO2010072726A1] The present invention relates to a racquet for ball games, comprising a frame having a head area for accommodating strings and a grip section for holding the racquet, wherein the frame comprises at least one transparent or translucent section made of a transparent or translucent material, said section being integrally connected to the rest of the frame. A method to manufacture such a racquet is also described.
