Abstract (en)

[origin: EP2386391A2] The wood splitter (1) is provided with a splitting blade unit (3) having a splitting blade (4) for splitting off of a log of the timber (2). A timber transport device (14) is provided for transporting of timber on a transport surface (16) in a transport direction (17) during a transport process. A gap distance is essentially corresponds the height of the logs.
