Abstract (en)  
A tie clip comprises a body (11) and an elastic tab (12) facing a face (16) of the body (11) and having a first end (13) constrained to said body (11) and a second free end (15). The tab (12) is provided with a first elastic thrust component (A) directed towards the body (11). A further elastic element (18) is constrained to the body (11) at its face (16) and is provided with a second elastic thrust component (B) directed towards the tab (12).
