Abstract (en)
[origin: CA2750023A1] The invention relates to a training and/or rehabilitation device in which a walking or running treadmill (2) is arranged in a water container comprising flowing water (9). In order to be able to use said device regardless of the design of the water container, the walking or running treadmill (2) can be inserted in the water container or into free water as a unit together with a flow generator (3).
