Abstract (en)

[origin: WO2010083898A1] The invention relates to a transport system for providing printing forms to a printing press, wherein several printing forms may be transported in the same cassette. A transport vehicle is provided and several cassettes can be transported simultaneously with said transport vehicle. A conveyor device is provided in the printing press which conveys printing forms stored in cassettes which have been transported to and arranged in the printing press to a form cylinder of said printing press.
