Abstract (en)

[origin: EP2390155A1] The invention relates to a displaceable rolling bogie for railway vehicles, in which the wheels (4) are assembled with the possibility of displacement on the corresponding axle body (1) to change the track gauge, having locking elements (11) which come out from and go into fixed sockets by means of lowering and raising the axle body (1) to release the displacement of the respective wheel (4) and to fix it in the selective positions of the track gauge.
