Abstract (en)

[origin: EP2390583A1] The present invention relates to a casing for a domestic appliance, in particular for a cooking oven. The casing comprises a bottom part (40) formed as a metal sheet, two side walls (20) formed as metal sheets, a rear part (30) formed as a metal sheet, and a top part (2) formed as a metal sheet. At least two adjacent parts (2, 20, 30, 40) of the casing are connected or connectable together along their common adjacent edges. At least one (40) of said two adjacent parts (20, 40) of the casing comprises a plug-in tab (46) and at least one other (20) of said two adjacent parts (20, 40) of the casing comprises an opening (29C), wherein the plug-in tab (46) is inserted in or insertable into the opening (29C) in order to pre-fix said two adjacent parts (20, 40) of the casing. Further, the present invention relates to a method for assembling a casing for a domestic appliance.
