Abstract (en)
[origin: GB2467390A] A sealing assembly 10 fixed onto the vertical perimeter of a shower tray or bath before final installation to seal the joint between the bath or tray and the wall. The seal comprises a flexible strip 11, the strips inner face has an upper 16 and lower 17 section with the lower section having a flexible adhesive strip 20 attached with an adhesive tape liner strip 30 covering the adhesive. The tape liner is releasable in two or more separate strips 31, 32 providing a greater handling aiding installation. The adhesive tape liner may comprise parallel overlapping strips or parallel precut or perforate strips that do not overlap. The adhesive may be a waterproof adhesive such as a butyl rubber compound. The strip may include a strip of bond breaker material 52 to create a barrier between the upper section 16 and the adhesive tape 20.
