Abstract (en)
[origin: WO2010085935A2] The invention relates to a vacuum pump housing cover, comprising a planar contact surface for attaching the vacuum pump housing cover. In order to create a vacuum pump housing cover which has a simple design and is cost-effective to produce, the vacuum pump housing cover is designed as a formed part which is made of steel and has a through hole and which, on the side of the vacuum pump housing cover facing away from the planar abutment surface, is surrounded by a connector housing part that is likewise designed as a formed part made of steel and bonded to the vacuum pump housing cover.
