Abstract (en)
[origin: EP2392756A2] The bearing (1) has support and control guides (6, 7) including vertical bearing shafts for attachment at frame-sided and wing-sided fitting parts (4, 5). The wing-sided fitting part includes a flange element (8) for connection with a wing, and a carrier element (9) for connection with the guides. A tilted bearing (15) is arranged between the flange element and the carrier element. The frame-sided fitting part includes a bearing plate (11) for connection with the guides, and a base plate (10) for connection with a frame (2). The base and bearing plates are connected by a plug connection (12).
