Abstract (en)
[origin: US2010117625A1] An energy usage monitor for a household appliance, and a method of monitoring energy usage of a household appliance, are provided. The system and method include a system and an energy usage monitor that monitors energy usage information of the system of the household appliance. The system and method may include outputting energy usage information of the system of the household appliance based on the energy usage determined by the energy usage monitor.
