Abstract (en)
[origin: WO2010089500A1] The invention relates to an electric cable (10), including: at least one composite reinforcement element (1) including one or more reinforcement element(s) at least partially embedded in an organic matrix; a coating (2) surrounding said composite reinforcing element(s) (1), said coating (2) being sealed all around the composite reinforcing element(s) (1); and at least one conducting element (3) surrounding said coating (2), characterised in that the thickness of the sealed coating (2) does not exceed 3000 µm.
